ThinkPad Recovery Disc label specification

Color
All labels are black text on silver disc.

File identification
The \MFG directory of this disc contains the disc-label artwork template to use when creating label artwork for this Recovery Disc.

RCT*xxxxx*.CDR: The Recovery Disc template artwork is in CorelDraw format (use CorelDraw 8 or later to edit).
RCT*xxxxx*.PDF: The Recovery Disc template artwork in Acrobat Portable Document Format (use Adobe Acrobat Exchange version 4.0 or later to edit).
VALUES.TXT: This file contains the values for the fields defined in the template. This is the same information as printed in the Field and Value areas of the physical Golden Master Recovery Disc label.

Instructions

Locate the artwork template in the \MFG directory, and then insert the following items into the appropriate fields in the template. See the \MFG\VALUES.TXT file or the physical Golden Master Recovery Disc label for the values to use in these fields.

- **Field 0:** Enter the ThinkPad family name: For example, T23. If no information has been provided for this field, delete [field 0] from the template.
- **Field 1:** Enter the Disc number: For example, Disc 1 of 2)
- **Field 2:** Enter the date: Month (spelled out) and 4-digit year only
- **Field 3:** Enter the 7-digit part number in the format “Disc P/N XXXXXXX”
- **Field 4:** Enter the operating-system name
- **Field 5:** Enter the language code: 2-character alpha format
- **Field 6:** Enter the 7-digit FRU number in the format “FRU P/N XXXXXXX”
- **Field 7:** Enter the MS copyright date after the copyright symbol
- **Field 8:** Enter the machine types: One or more 4-digit strings, separated by commas. If all machine types cannot fit on the line identified as [Field 8 - line 1], use the fields below it [Field 8 - line 2], [Field 8 – line 3], and [Field 8 - line 4] for the remainder of machine types. Delete any Field 8 lines that are not required.

Important: For Discs being replicated in China, do NOT change the 'Recorded in China' statement. If this disc is replicated outside of China, modify the "Recorded in China" statement to reflect the actual country or region where the disc is being replicated. The country or region name must be printed in English and spelled out - no abbreviations can be used other than USA, for the United States, and UK for the United Kingdom.
